EDUCATION

B Tech in Computer science and business systems

Govt . Model Engineering college , Thrikkakkara

09/2023 - Present

Kochi , India

PERSONAL PROJECTS

BidSnap - An Online Auction System built using React , Flask , MySQL (02/2025 - 04/2025)

Privy - Ephemeral & Encrypted Messaging Platform (02/2025 - 02/2025)

- Privacy-focused messaging platform designed to ensure your conversations remain secure and untraceable. Utilizing modern cryptographic encryption, including principles of PGP and a zero-storage architecture, Privy ensures your messages exist only in RAM, leaving no digital footprint. It's true ephemeral messaging.

Faux Deepfake Detector (12/2024 - 01/2025)

- A chrome extension that helps you spot fake images and videos while browsing the web

Grammr (08/2024 - 09/2024)

- A Grammar checker built using Next JS and Gemini API

WORK EXPERIENCE
